

## MY ERASMUS EXPERIENCIE

MARINA SELVA GARCÍA  
NURSING STUDENT  
UNIVERSIDAD DE ALICANTE, SPAIN.

I went to Brno on March 11<sup>th</sup> ready to discover a new place, a new culture and above all a new way of nursing and it exceeded all my expectations. The girl who went there is not the girl who came back from there, in a very good way.

From the very first moment I met Andrea Pokorná, their workmates and students I felt very welcome. I could contact them whenever I had a problem, or in case I needed anything and I also used to meet Andrea after each period in a new unit to have a little bit of feedback, to talk about my feelings there, about how I was welcome there, treatment by my tutor or even about new things I had learnt. I will always be grateful for all the support, organisation and resources provided from them.

I was also truly lucky with the tutors I had in every unit, who were really empathetic, kind and excited to teach me different things since it was the first time I rotated into paediatrics and intensive care departments. I had the chance to experience the differences between the Spanish health care system and the Czech health care system which I think is very important in order to improve and to earn experience as a future nurse.

In addition, I was able to meet lots of new people who have become part of my life now, with who I travelled to many places around Europe and got to experience some of the best months of our lives.

In conclusion, I sincerely recommend you to join this adventure and I assure you that you will never regret your decision.

Best wishes

Marina
